The area west of Rugensee (M 54/T 47) was reconnoitered on 22 February 1951, but no indications of the construction of an airfield were seen. Local residents of Rugensee also stated that the construction of an airfield in the vicinity of Rugensee was unknown to them. No Soviet Air Force soldiers or motor vehicles were seen. Since airfield construction is always connected with the confiscation of land and drafting of a work force, [REDACTED] that local residents would probably have learned of the beginning of construction. *
